### FCR 11 Range Rover 04-05

The L322 was not converted to CAN bus technology all in one go. It evolved with more and more on board systems being replaced over a 3 year period. Below is listed the CAN Bus modules that were added each year. Where a CAN bus module was added, the legacy version from the above list was dropped. The FCR11 software has both legacy and CAN Bus modules so that all vehicles between 05 and 09 are fully covered.
